県立相模湖公園  
Lake Sagami Prefectural Park

県立相模湖公園

Lake Sagami Prefectural Park

# Lake Sagami Prefectural Park

LAKE SAGAMI

Lake Sagami Park is located beside Lake Sagami; a manmade reservoir formed at the completion of Sagami Dam. Opened in 1951, this prefectural park is extremely rich in history. You can enjoy morning, noon and night, the ever changing expressions of the water surface. The four seasons sees the lake play host to traditional events and activities such as cherry blossom viewing, summer fireworks, autumn foliage and smelt fishing. Sightseeing boats are also in operation, and fishing and boating can be enjoyed throughout the year. The surrounding facilities have a long history with many sites of interest. The beautiful scenery, activities on the water and in the woods, makes a visit to Lake Sagami Park feel like an “active resort” experience.

# Lake Sagami Prefectural Park
